

Name: _____

Date: _____

An **analogy** is a comparison of two pairs of words that have the same relationship between them. Analogies are typically expressed with colons.

Example: *number : math as letter : language*

This is read, *Number is to math as letter is to language.*

▶ Determine the relationship between the two words in each pair. Then, fill in the missing word to complete the analogy and write an explanation of the relationship on the lines beneath.

1. grass : countryside as pavement : _____
